

XX Giornata della Chimica dell'Emilia Romagna

PREMI MIGLIORI POSTER

P58 Mirco SCACCAGLIA 'Bismuth complex of quinoline thiosemicarbazone restores carbapenem sensitivity in NDM-1 positive *Klebsiella pneumoniae*'

P50 Paolo RAVARINO 'The impact of fluorine in the gelation ability of a shared scaffold'

P64 Lucia VISIERI 'Fine tuning the interactions between BODIPY dyes supported on a calix[4]arene'

P33 Alexia MATTELLONE 'Green solid phase peptide synthesis: alternative solvent and base'

P63 Giulia TURRIN 'Functionalized gold nanoparticles as an anchor to detect covid-19 infection'

P26 Costanza LEONARDI 'Expanding the Toolbox of Heterogeneous Asymmetric Organocatalysts: Bifunctional Cyclopropenimine Superbases for Enantioselective Catalysis in Batch and Continuous-Flow'
